

- **HeartCode BLS** is the AHA’s blended learning delivery method for the BLS Course. Blended learning is a combination of eLearning, in which a student completes part of the course in a self-directed manner, followed by a hands-on session
- Designed for healthcare professionals and other personnel who need to know how to perform CPR and other basic cardiovascular life support skills in a wide variety of in-facility and prehospital settings
- HeartCode BLS is the eLearning component of BLS blended learning. It uses a variety of eLearning assets such as dramatizations, e-Simulations, animations, self-directed learning, and interactive activities to teach students BLS knowledge and skills. After completing the eLearning component, students will attend a structured Instructor-led course that focuses on meaningful skills practice, debriefing, team scenarios, discussions of local protocols and skills testing
- You must provide an e-mail address when ordering this product. A key and instructional information will be sent to you in order to activate the course online
- CE/CME credits available
- Codes will be emailed within 24 hours of orders placed between 730am-530pm CST Monday-Friday. If order is placed on Friday after 5pm CST, code will be emailed Monday morning

This product is non-returnable once opened.

- **Heartsaver First Aid CPR AED Online** is the eLearning portion of the Heartsaver First Aid CPR AED blended learning course and is designed to teach students the cognitive information needed for first aid, CPR, and AED training
- This course is designed to prepare students to provide first aid, CPR, and use an automated external defibrillator (AED) in a safe, timely, and effective manner
- Upon completion of the online portion, students must complete hands-on skills session with an AHA BLS or Heartsaver Instructor
- You must provide an e-mail address when ordering this product. A key and instructional information will be sent to you in order to activate the course online
- Codes will be emailed within 24 hours of orders placed between 730am-530pm CST Monday-Friday. If order is placed on Friday after 5pm CST, code will be emailed Monday morning
- **This product is non-returnable once opened.**

Please note this program has three options you could order;

- Heartsaver CPR AED
- Heartsaver First Aid
- Heartsaver First Aid CPR AED

- **HeartCode ACLS** is the AHA’s blended learning delivery method for the ACLS Course. Blended learning is a combination of eLearning, in which a student completes part of the course in a self-directed manner, followed by a hands-on session
- HeartCode ACLS is a self-directed, comprehensive eLearning program that uses e-Simulation technology to allow students to assess and treat patients in virtual healthcare settings. To enter the course, students must complete a pre-course self-assessment. Students will then be presented with a team dynamics lesson and 10 In-hospital patient cases, including a BLS case and 2 megacode cases. The cases may be repeated as many times as necessary to pass.
- The ACLS Course is designed for healthcare professionals who either direct or participate in the management of cardiopulmonary arrest or other cardiovascular emergencies. This includes personnel in emergency response, emergency medicine, intensive care, and critical care units such as physicians, nurses, and paramedics, as well as others who need an ACLS course completion card for job or other requirements.
